煤氣及水閥總開關

請熟悉您住所的水閥總開關位置, 以便使用, 其通常會安裝在您其中一個衣櫃的內部。煤氣閥門則位於爐灶下方兩側。

如遇緊急情況, 請關閉水閥開關以避免不必要的損失。

長時間的外出

- 當您的住所需要空置長達兩星期以上時, 請確保關閉冷水及熱水開關, 以避免不必要的麻煩。
- 寒冷天氣時, 建議保持屋內溫度在 17 攝氏度以上。

提示: 當您長期外出時, 建議您邀請您的親屬或朋友幫助打理您的住所, 如檢查郵箱、保養水槽及坐便器的 U 型下水管 (每兩周沖水一次以阻隔異味) 等。

洗衣機/乾衣機

洗衣提示: 請使用  高效洗滌劑。

HARD SURFACES/材料保養

<p style="text-align: center;">Laminate & Engineered Flooring</p> <p>A few moments of care and a little common sense can go a long way in keeping your new floors looking their best.</p> <p>Routine Maintenance:</p> <ul style="list-style-type: none"> - Use a damp cloth to blot up spills as soon as they happen as excess water can damage the surface and seep into the seams of the flooring. - Sweep, dust or vacuum the floor regularly (once or twice a week). Use a broom with soft bristles and/or a vacuum with the hardwood attachment only. - Periodically clean the floor with cleaning products made specifically for laminate/wood floor care. - DO NOT wash or wet mop the floor with soap, water, oil-soap, detergent, or any other liquid cleaning material. This could cause swelling, warping, delamination, and joint-line separation, and void the warranty. - Do not use steel wool, abrasive cleaners, or strong ammoniated or chlorinated type cleaners. - Do not use any type of buffing or polishing machine. <p>Environmental Protection:</p> <ul style="list-style-type: none"> - Entry mats will help collect the dirt, sand, grit and other substances that might otherwise be tracked onto your floor. - To prevent slippage of area rugs, use an approved vinyl rug underlayment. - Use floor protectors and wide-load bearing leg bases/rollers to minimize the chance of indentations and scratches from heavy objects. - Remember, preferable temperature should be approximately 17-23°C (62-73°F) with a relative humidity of 54-60%. Humidity should never be allowed to drop below 30% as this may cause gapping. - Keep your pet's nails trimmed to prevent them from scratching your floor 	<p style="text-align: center;">Porcelain Tile:</p> <p>Regular maintenance of your tile backsplash will keep it looking as good as it did when it was installed. Wash with water and a pH neutral cleaner; rinse with warm water and allow to dry. Always wipe up spills/splashes immediately to prevent staining of the grout. NOTE: It is every homeowner's responsibility to re-seal the grout with a certified grout sealant annually. You can purchase grout sealer from any local home improvement store.</p> <p style="text-align: center;">Engineered Stone:</p> <ul style="list-style-type: none"> *Do not sit, stand or place heavy objects on countertops. *Do not place hot items directly on the stone surface. *Always wipe up spills immediately to prevent staining. *Always use a cutting board; DO NOT cut any items directly on the countertop. <p>Do not use abrasive cleaners, scouring pads, and similar materials as they may damage the surface. Clean with a soft, clean cloth, mild detergent and water or use a product specifically formulated for use on these materials.</p> <p>Care should be taken in choosing a detergent additive that will not damage the luster of the polish of the engineered stone. High acidic or high alkaline content will remove the shine. Only products specifically designed for use on engineered stone should be used.</p> <p>Products which are an acid or alkali such as perfume, shampoo, toilet bowl cleaners, Windex, juices, vinegar, soda, etc. will damage these surfaces.</p>
